

Integrated Biometric Time Attendance Device

MFSTAB-3G+LAN (Aadhaar Enabled)

MANTRA

Benefits

- Fast Biometric Identification
- Quick Response
- Easy Installation
- User-Friendly
- Higher Accuracy

Features

Inbuilt Battery Backup to Ensure 99.9% Uptime

Support STQC/Aadhaar Certified Fingerprint Reader

Compatible with State-of-the-Art Time Trak, BioPay Software

Tough Casing Protects your Device From Drops & Scratches

1:1 or 1:N Fingerprint Matching Functions

Wifi Means Cable Less Installations

Supports 3G Network

Data Retention in Case of Power Failure, No Loss of Data

Online/Offline Software Makes Individual Operation Easy to Manage

Rugged Casing (Optional) for Better Gripping, Shock Absorption & Versatile Field Application

Integrated Biometric Time Attendance Device

MFSTAB-3G+LAN (Aadhaar Enabled)

MFSTAB 3G + LAN is an innovative biometric fingerprint device for Time & Attendance applications. The 7" TFT LCD screen can display more information vividly. Our fingerprint biometric terminal allows wireless 3G & LAN connectivity which is suitable for both basic to moderately complex time attendance system requirements. MFSTAB 3G + LAN is equipped with STQC certified fingerprint sensor for an efficient biometric data capturing and matching.

MFSTAB 3G + LAN, also used in Aadhaar Enabled Biometric Attendance System (AEBAS) for monitoring the attendance of government employees in real-time using their Aadhaar number and fingerprint impression. The device is designed with enhanced features to provide better time attendance management & reporting. Its dual SIM card support, wireless connectivity, and touch screen makes it a foolproof Time-Attendance solution for Government organizations.
