

SecureAccessV5 is a professional WiFi based Color fingerprint time attendance and access control system designed for medium to large size enterprise, it integrates fingerprint identification, built in RFID card reader, with TCP/IP, Weigand output Communication. It comes with function key to customize IN and OUT Functionalities. It is possible to integrate all kind of applications like ERP, HRMS, Payroll, Attendance and SAP with the device. It support various communication interface like WiFi, RS485, TCP/IP, USB to communicate with Host PC. It also gives real-time transactions on transactions monitor.

### SPECIFICATIONS

|                                |   |
|--------------------------------|---|
| Fingerprint Capacity           | 3000  |
| Reocords Capacity              | 100000  |
| Card capacity                  | 1000  |
| Sensor Type                    | Optical   |
| Card Reader inside             | Option  |
| Identification speed           | ≤1s   |
| FAR                            | ≤0.0001%  |
| FRR                            | ≤00.1   |
| User Name display              | Displays user's name on LCD                     |
| Fingerprint Sensor Resolution  | 500dpi  |
| Fingerprint Sensor Area        | 16mm x 14mm                                     |
| Finger placement angle         | 360 degree rotation allowed                     |
| Maximum Card per person        | 2   |
| Maximum Fingers per person     | 10  |
| Identification Mode            | 1 : N & 1 : 1                                   |
| Maximum Admin storage capacity | 1000/3000                                       |
| Identification Mode            | Fingerprint/Card/Password                       |
| Maximum Employee ID length     | Numeric, 6 digits                               |
| Power Supply                   | 9v DC 1A , AC Adapter included                  |
| Real Time Clock                | Yes   |
| Buzzer                         | YES   |
| LED                            | 2.8 Inch TFT Color LCD                          |
| Real time control              | Yes   |
| Verify photo                   | Fingerprint photo and User Name                 |
| Access control Interface       | Connect with Electronic lock, access controller |
| Language                       | English ,Thailand, Spanish etc                  |
| Voice                          | high-definition voice                           |
| Environment                    | Inside  |
| Keyboard                       | 4 × 4 button Keypads                            |
| Function KEY                   | Yes   |
| Access control                 | Yes   |
| Wiegand output                 | YES   |
| Wiegand input                  | NO  |
| PC software connection Mode    | WIFI /RS485/TCP/IP/USB Line/U Disk              |
